

## Remarks

### Substitute Sequence Listing

The substitute sequence listing is identical to the sequence listing filed with the application except that:

1. "Nva" has been replaced by "Xaa" in SEQ ID NOS:34, 35, 37, and 38. "Xaa" is identified in item <223> as norvaline.

2. The application Serial No. and filing date have been added.

I believe the contents of the paper copy and the contents of the computer readable form of the substitute sequence listing are identical.

The substitute sequence listing adds no new matter.

Respectfully submitted,

Date: April 14, 2004
